

Evan Pouteau

BUT MMI student · Full-stack web developer

● Web development internship · starting in April

Passionate about coding, I enjoy taking an idea, designing the database, and building intuitive, interactive interfaces.

My projects

Egyptian Arabic — personal project, live

NEXT.JS · REACT · TYPESCRIPT · SUPABASE · AZURE SPEECH · GEMINI · VERCEL · GIT

App for learning the Cairo dialect: 30 modules (A1 to B2), quizzes, a listening exercise and an AI tutor (Gemini). All 525 words can be played, each clip checked by ear with an Egyptian native speaker or re-recorded by her.

Muscu — personal project, live

NEXT.JS · SUPABASE · VERCEL

Workout tracking app: a four-day program stored in the database, used every day.

Le Lobby de l'Urbex — solo project

HTML · CSS · JAVASCRIPT · PHP · SQL · DOCKER · RENDER · GIT

Front-end: wireframe, responsive HTML/CSS, JavaScript (dynamic fields, star rating)
Back-end: data model, PHP/PDO CRUD with prepared statements
Docker: PHP 8.2 + Apache container, credentials in environment variables
Deployment: Render (container) and a MySQL-compatible TiDB database

Gestural portfolio — experiment

JAVASCRIPT · CANVAS · MEDIAPIPE

Interface driven by hand gestures (MediaPipe Hands), with smooth rendering and custom parallax in HTML5 Canvas.

Filia — university team project (3 people)

UX RESEARCH · INTERVIEWS · ANALYSIS

Needs assessment for Filia, a skincare mobile app with AI skin diagnosis designed by third-year students. Semi-structured one-on-one interviews with 15–25-year-olds (trust in AI, mascot, price), then analysis and recommendations.

Education

- **BUT MMI — Web Development track**
  IUT Clermont Auvergne, Le Puy-en-Velay · 2025 – 2027
- **Bachelor in Computer Graphics**
  IUT Clermont Auvergne, Le Puy-en-Velay · 2024 – 2025
- **French Baccalaureate (STI2D), with honours**
  Lycée Charles de Gaulle, Poissy · 2024

Skills

Languages	HTML / CSS · JavaScript · TypeScript
Frameworks	React · Next.js · Three.js
Back-end & deployment	PHP / SQL · Supabase · Docker
Tools & UX	Git · Figma · UX research
